BECAUSE LIVED
EXPERIENCE IS EXPERTISE

A MESSAGE FROM OUR EXECUTIVE DIRECTOR

Our second year of existence has just come to an end, and we are very proud of the journey so far. The year 2025 was marked by remarkable growth at every level: strengthened team capacities in organizational and technical aspects, connections with new national, regional and international partners as well as the strong dynamism of the team.

It is this dynamism that enabled us to achieve important results which we are pleased to present in this report. For a newly established organization, it is not always easy to reach where we are within just two years, but thanks to what motivates and inspires us, we continue to overcome challenges and our experience encourages us to keep moving forward.

This is an opportunity to thank the entire team for their hard work and commitment in achieving the positive results of which we are all proud. I would especially like to thank the peer supporters, psychologists and volunteers who have their all throughout this year. I also extend my gratitude to our partners who trusted us and initiated a partnership journey with us.

Each year, we continue to grow significantly and we are confident that this new year will lead us to another level of maturity

ORGANISATION PROFILE

BECAUSE LIVED
EXPERIENCE IS EXPERTISE

About Us

We are a community-based and non-profit organization founded by People With Lived Experience. We work in the field of mental health and psychosocial support particularly within the community, to promote the reintegration of people who have undergone psychiatric experiences and those who are highly marginalized. In schools, we focus on prevention and strengthening the resilience of young people who are victims of stigma, discrimination and other forms of violence. We also raise awareness among the Burundian population through various communication channels about mental health issues in order to help reduce the stigma and discrimination faced by people living with mental health conditions.

About Us

We provide people experiencing psychological distress with counseling, therapy, and especially peer support by creating a safe, protective and inclusive environment. We are driven by the fact that we ourselves have experienced mental health challenges and we want to contribute so that others do not have to suffer in the same way. We support these individuals throughout their recovery journey so that they may feel better and continue with their daily activities.

We are guided by five core values : Love, Leadership, Integrity, Peace, and Empathy.

CONCLUSION AND FINAL MESSAGE

**BECAUSE LIVED
EXPERIENCE IS EXPERTISE**

The activities carried out during the year 2025 were supported by the members of the organization and voluntary donors. The total cost amounted to 206 320 500 BIF equivalent to 71 385 USD.

With each passing day, we continue to grow significantly. In this third year of our organizational development in all aspects, we remain open to collaborations and partnerships that can restore hope to isolated and resigned individuals facing various painful experiences, enabling them to live a dignified, respected life filled with self-esteem.

"You are because I am," and we can support one another because we are INKINGI.
